A Old Library Re-Use Project

Old Library Re-Use Project

This project renovated the old Library building by installing a new public elevator, upgrading restrooms to meet public access infrastructure improvements compliance, and making other tenant improvements.

The total project cost was approximately \$1,100,000

B HVAC Upgrades – Old Library

HVAC Upgrades – Old Library

This project renovated the old Library building by replacing the Heating, Ventilation and Air Conditioning system (HVAC).

The total project cost was approximately \$643,000.

C Former Library Building Roof Improvements

Former Library Building Roof Improvements

This project replaced the roofing over the former library at the Civic Center.

The total project cost was approximately \$67,000.

D Blossom Hill Park Restroom Rehabilitation

Blossom Hill Park Restroom Rehabilitation

The restroom rehabilitation project at Blossom Hill Park addressed the deteriorating state of the exterior support columns, replaced the failed program storage entrance, and repainted as necessary.

The total project cost was approximately \$40,000.

E Green Bike Lanes

Green Bike Lanes

This project added green bike lanes near Los Gatos High School as recommended by the Youth Commission.

The total project cost was approximately \$46,000.

E Winchester Boulevard/Lark Avenue Intersection Improvements

Winchester Boulevard/Lark Avenue Intersection Improvements

This project added a northbound receiving lane on Winchester Boulevard from Lark Avenue to Wimbledon Drive. In addition, the project reconfigured traffic lanes on westbound Lark Avenue to provide a double right turn onto Winchester Boulevard, and modified the traffic signal system at the intersection of Winchester Boulevard and Lark Avenue.

The total project cost was approximately \$550,000.

F Traffic Around Schools

Traffic Around Schools

This project conducted a study that evaluated and made recommendations specific to reducing vehicular traffic around schools. The study has provided actionable items to guide future investments by the schools and the Town.

The total project cost was approximately \$86,000.

G Hillside Road Repair & Resurfacing

Hillside Road Repair & Resurfacing

This project provided asphalt surface treatments to Shannon Road from Los Gatos Boulevard to Hicks Road. The project was largely grant funded through a One Bay Area Grant (OBAG). The project was completed in the previous fiscal year with project close out completed in 2017.

The total project cost was approximately \$250,000.
